

FASD POCKET CARD:

I have a Fetal Alcohol Spectrum Disorder (FASD) diagnosis, which is a brain based and lifelong injury. I am not able to fully understand abstract concepts, including my legal rights. I may have faulty memory, may be easily confused, may be highly suggestible and may provide inaccurate information or false confessions. I may have a hard time understanding things that are in writing and am unable to understand, waive, or exercise and protect my legal rights. I respectfully request that my support person, or a lawyer, be involved in any interviews or searches of my property or person, as they understand my disability and can help me to exercise my rights.

FASD POCKET CARD – Gladue rights:

I have a Fetal Alcohol Spectrum Disorder (FASD) diagnosis, which is a brain based and lifelong injury. I am not able to fully understand abstract concepts, including my legal rights.
